

PLANET TEMPERATURE

Poisonous substances released into the air are not only harmful to our lungs but also to the entire planet. They pile up around it and create an impermeable cover that warms the earth.

| QUESTION | ANSWER (yes/no) | ADDITIONAL INFORMATION |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|------------------------|
| Does the school try to reduce the amount of pollutants in the air from heating (modernization of the boiler room, by changing the fuel, connecting the school's heating to heat pumps, solar sources, etc.)? | | |
| Does the school organize events to support walking or cycling? | | |
| Does the school plant ground cover plants on the school grounds? | | |
| Does it replace concrete surfaces with permeable surfaces? | | |
| Did you find out something else - write it down: | | |

Discuss the topic of electric cars vs fossil fuel cars.
